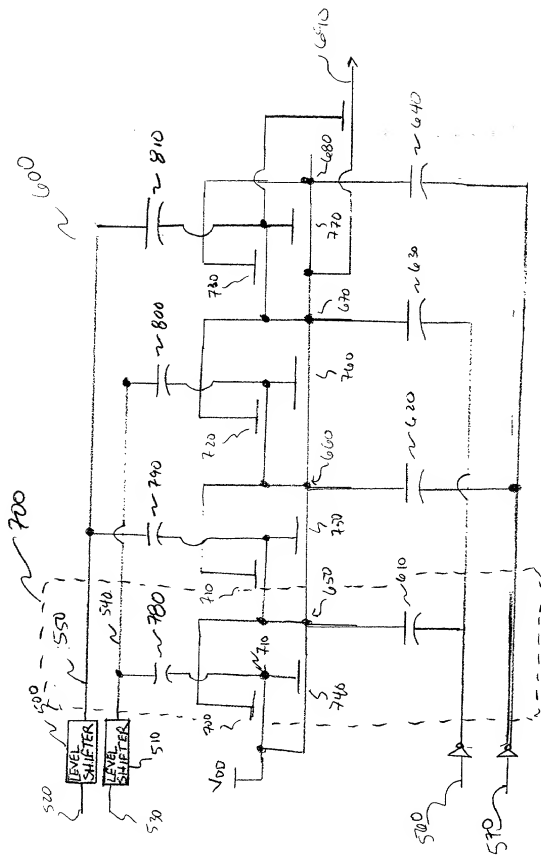

Fig. 3

Timing diagram showing four signals: PH1, PH2, PH1AH, and PH2AH. The signals are plotted against time, with a vertical dashed line indicating a specific time point t_0 . The signals are labeled with their respective voltage levels: VDD and 2VDD. Handwritten annotations on the right indicate approximate values: PH1 is ~560, PH2 is ~570, PH1AH is ~540, and PH2AH is ~550.
